

Time

I don't want to walk, if I don't have to walk

If I don't walk to walk at all

I don't want to talk, if I don't have to talk

if I don't have to talk at all

I don't want to look, if I don't have to look

If I don't have to see at all

I don't want to listen, if I don't have to listen

if I don't want to listen at all

Our time is precious

Our time is short

I don't want to waste ... my time

I don't want to sleep, if I don't have to sleep

if I don't want to sleep at all

I don't want to breathe, if I don't have to breathe

I don't want to breathe at all

I don't want to hate, if I don't have to hate

don't hesitate I don't want to hate at all

Chs

I don't want to cry, if I don't have to cry

if I don't want to cry at all

I don't want to feel, if I don't have to feel

if I don't want to feel at all

I don't want to love, if I don't have to love

It breaks your heart, tears you apart

I don't want to love at all

Chs to end
