

When you were Broken
I fixed you once before
Don't know what you want
Or what you're looking for
When you were falling
I was always there
there to catch you
there to care

Broken Angel

Falling from the Sky
I was there to catch you
You never questioned why
Broken Angel
Falling from the sky
I was there to catch you
And set you free to fly

In the darkness
I tried bring you light
When sadness filled you
I tried to help you fight
When you ignored me
Or you just didn't care
Even then you ...
You knew I was there

[chorus]

I stood by you
Through thick and thin
I was always there (though)
You never let me in
I know you don't need me
I know you don't care
And you don't love me
But I was always there

[chorus] break [chorus] x2 - I set you free to fly
