

It's not Blue

I wake in the morning
What do I see
The rain is pouring down
But it doesn't bother me

Life used to be so black & white
only one way for me to go
but that is all behind me now
Now that i know

Chorus

It's not blue
It's not Blue
No it's not blue
There's a rainbow in you

I used to dread my waking
to another empty day
now inside me the sun is shining
& it takes the grey away

Now I' out on the road
footloose and fancy free
there are no restrictions, nothing to stop me

Chorus

I used to look around me
Crie at all I'd see
But now I just embrace it
What will be will be

Life used to be so black & white
only one way for me to go
but that is all behind me now
Now that i know

Chorus to end
